WINE BODY

ROUTE SAVER

MICKEY'S WINE BODY *ROUTE SAVER*

Load carts in the warehouse by Customer pre-order

Case products often handled as many as six times per delivery. Mickey's system offers a method of reducing the number of times a driver must handle the product.

NO COMPARISON

SAFETY
Safer to unload

SPEED
Saves time which saves routes

SAVINGS
Extremely profitable

Carts are loaded on the truck by delivery sequence

While providing for dock loading at the warehouse, as well as at the customer's location, A lift gate allows for quick efficient unloading when docks are not available.

Mickey Wine Body

Spend less time, with less handling inside the store

Customer drop off is fast and easy with pre-loaded cart

Easy check-in. Complete order is checked while still on the cart.

Loaded carts can be wheeled quickly thru narrow aisles.

Product is only handled one time. Direct from cart to shelf.

The Mickey Wine body is designed with glassboard interior lining and a composite floor. This allows you to wash the interior without water damage.

For increased lighting a translucent roof is included

Empty carts are returned to truck to be reused.

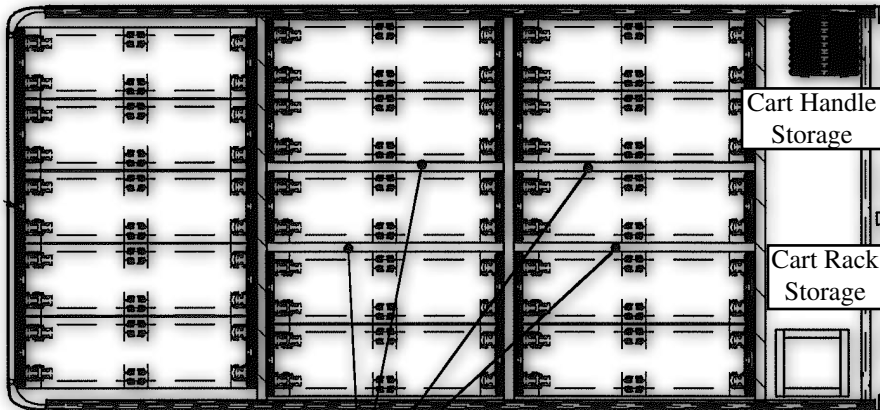

The first carts emptied are returned to the truck and broken down (handles removed). Cart bases are stored in the cart rack, and the handles on the hanger bracket. This allows room to access the remaining carts.

Convenient Rack is provided for first carts emptied

Storage Rack for Cart Handles

"F" type Bar Retainers are used to stabilize carts side to side

Top view of body shows cart loading for 15 carts, along with storage for handles and carts
